Fleet Broadband Service

Fleet BroadBand offers connectivity service & backup through a robust network of L band satellites. It is accessible globally, except for the extreme polar regions, and clients are able to select from FBB 150, 250, 500 to best suit their ship's needs. FBB makes it possible web surfing, emails and to send and receive SMS (text messages) to and from other FBB terminals and land-based cellular networks through a computer. Voicemail and other enhanced call management options are available, including caller identification, caller barring and call forwarding.

- > Connectivity service & backup through L band capacity
- > Global accessibility
- > Possibility to send and receive SMS
